

NEVADA PREPAID TUITION

The Nevada Prepaid Tuition Program enables Nevada parents to lock in tomorrow's college tuition at today's prices. **Program benefits can be used both in-state and out-of-state.**

HOW IT WORKS

You purchase credit hours at today's cost for use when your child is ready to go to college. Enjoy the peace of mind knowing that your tuition costs will never go up. Promise made, promise paid!

START TODAY

The sooner you start, the more you can save. Parents who purchased a 4 Year University Nevada Prepaid Tuition plan in 1998 paid \$69 per credit hour rate. When their beneficiary enrolled at a Nevada university in **2014**, tuition had increased to \$191.50 per credit hour.

When their child graduates from college in 4 years, those parents will have saved more than \$14,700 by purchasing a Nevada Prepaid Tuition plan in 1998.

LOOKING AHEAD

Using current Nevada university tuition rates with a projected tuition increase of 6% per year: if you purchase a 4 Year University plan today and your child is 5, that's a potential savings of \$27,590* on tuition when they attend college.

FLEXIBLE OPTIONS

There are a wide variety of plan and payment options to fit your budget and educational goals. You pick the plan that works best for you, your beneficiary, and your budget.

USES

Contract benefits can be used to pay tuition costs at public or private institutions of higher education, including colleges, universities, and trade schools across the nation, approved by the U.S. Department of Education.**

TRANSFERABILITY

If your beneficiary decides not to attend an institution of higher education, the contract may be transferred to a sibling or a first cousin. You can also cancel your contract at any time and receive a refund, minus a \$100 administrative fee.

FAMILY AND FRIENDS CAN HELP

Grandparents, other relatives and friends can make contributions to your beneficiary's account.
