

History of Marion Earl Star Rating

- **Nevada School Performance Framework (NSPF) vs. former CCSD SPF**
 - Instead of awarding points for year-to-year growth, the state only awards points to schools who show growth over a period of 3 years
 - Elementary schools will show a decrease because now the growth is measured over three years. Middle schools will see more of an increase because they no longer are measured by AYP (If they did not make AYP, the highest star ranking they could earn was a 3.). High school parents will not see much change as the emphasis on graduation rates remains the same.
- Marion Earl ES: 2010-2011 test data / **2011-2012 School Year**
 - 4 Star under CCSD SPF
- Marion Earl ES: 2011-2012 test data / **2012-2013 School Year**
 - 3 Star under CCSD SPF
 - Allowed to remain a “4 Star” ranked school because District gave the highest score of two consecutive years.
 - Under new NSPF, we scored 57/100, and would have been 3 Star
- **Marion Earl ES: 2012-2013 test data / 2013-2014 School Year**
 - **3 Star under new Nevada SPF**
 - **Earned 59 / 100 points (5 Star = 77-100; 4 Star = 68-76; 3 Star = 50-67; 2 Star = 32-49; 1 Star = 0-31)**
 - The difference between our current “Three Star” ranking and the higher (Four of Five Star) rankings for which we strive is not something that should be cause for disappointment. Instead, it should be cause for motivation to make the necessary changes to provide an even better education for our school community.
 - We are pleased to see that during the 2012-2013 School Year, Marion Earl showed more growth than the previous year. This upward growth is exactly our aim, and we AIM HIGH!
 - There is no reason we can’t become a 5 Star school...in fact, this is our #1 Goal. We have what it takes!
- Results were made available to the public on September 15, 2013
